PROJECTS

Simple Instagram clone

Dec 2023 - Dec 2023

<https://github.com/shivansh13579/instagramclone3>

This is a backend project and I used Node.js and Express framework to make it. I learned many things related to backend. How to register a user and how to add profile photo and also learn how to set router.

Blog projects

Nov 2023 - Nov 2023

<https://github.com/shivansh13579/ReactBlog-Project>

I created a blog project using React.js and also used React-Toolkit, Redux and Appwrite for database.

LMS full stack project
